Installation Instruction

Smart lamps are designed to be easily used to control your home improvements and appliances in smart way just follow steps below:

Step One

1. Search the latest version of "Tuya Smart" App from Apple App Store or Google Play Store and also can scan the QR code.

2. Open the App and click register.

3. Select your country code, enter the cellphone number and get a message containing a verification code.

4. Enter code in the "Verification Code" field, set your password and tap "Login".

NOTE: More information about App can be found on the website: https://smartapp.tuya.com

Step Two

1. Connect lamp to power supply and turn on the power.

2. Long press the timer button for more than 5 seconds until the green light flash, going into connecting status.

Step Three

1. Tap "+" or "Add device" button of the window. Select the lighting devices.

2. Make sure the lamp indicator quickly flashes and then tap "Confirm light blinks rapidly". If the indicator is not flashing quickly, tap the "AP Mode" on the top right corner, and then tap "Confirm light slowly blink".

3. Enter your home WIFI network password.

4. The progress bar shows your lamp is trying to connect, the "Add successfully" message appears once connected.

NOTE: Ensure that the user can control the device normally, if you have trouble or concerns with this step, please refer to the "help center" in the column "me".

How to use smart home AI devices control smart lamps

1. Enter to the control interface after open the "Tuya Smart" App, then click on the upper right corner of the lamp control interface to enter the lamp details.

**SHENZHENSHI KAIXIN GUANGDIAN CO., LTD**   **www.hensel-hk.com**
